

Blow air module BL1

Characteristics

The blow air module BL1 extends the enable signal of a control unit for the parallel

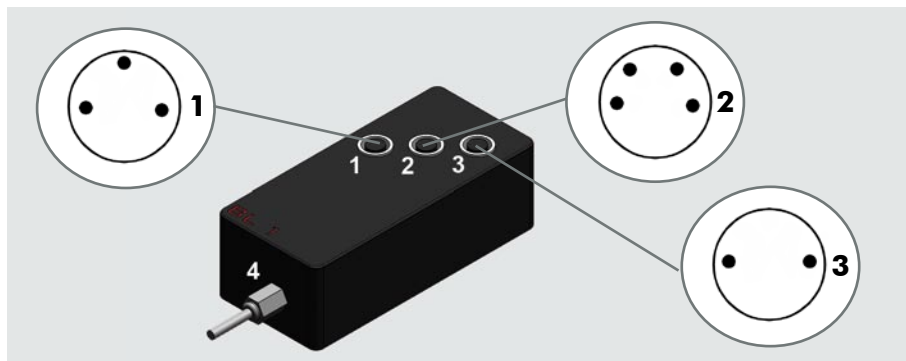

control of a blow air valve, etc. and contains a power supply unit. With the BL1, the control unit can

be quickly and cost-effectively extended without additional external wiring.

Technical data

Device type	BL1
Mains voltage	230 V AC, 5 VA
Plug connections	2 plug connections for external devices 1 plug connection for connection to ERZ1
Protection class in accordance with DIN EN 60529	IP 40
Article no.	2-000303

Connections and plugs

1 circular plug, 3-pos., gives enable signal for hopper system

2 circular plugs, 4-pos., for connection of a blow air valve

3 circular plugs, 2-pos., gives enable signal for feeding device

4 connection cables with shock-proof plug

Accessories

Designation	Description	Article no.
Angular connector, 2-pos., round	–	2-004237
Angular connector, 3-pos., round	–	2-004238
Angular connector, 4-pos., round	–	2-004239
Cable for blow air valve	–	2-005752
Magnetic valve	–	2-001104
